

TIPS FOR PICKING THE BEST ROUTE TO ORIOLES PARK AT CAMDEN YARDS

Plan ahead. Plot your route in advance.

Take transit. There are great choices other than your car.

- ◆ Metro
- ◆ MARC Train
- ◆ Park-and-Ride
- ◆ Light rail
- ◆ Bus System
- ◆ Downtown shuttles

If you're driving, use alternate "back door" routes.

If you can, AVOID I-95, I-395, Russell Street, and Martin Luther King, Jr. Boulevard.

If you live north, west or east of the ballpark, use alternative routes:

- ◆ From North: I-83 & south bound city streets
- ◆ From West: I-70 to I-695 to Route 40
- ◆ From East: Route 40, Eastern Avenue

Look for highway signs regarding current traffic & parking conditions.

Tune to 530AM on your car radio for traffic information.

Generally, don't pass the ballpark to park your car — there are 35,000 spaces throughout downtown.

Park at a distance and walk.

Come early. Stay late.

PARKING

Once in the neighborhood, drivers will choose from among some 5,000 on-site non bumper-to-bumper spaces on the site (over 1,000 more than were

available at Memorial Stadium), or some 20,000 additional (for night and weekend games) throughout the downtown, within a maximum of 20 to 25 minutes walking distance.

Park at a distance — it may be cheaper and less congested.

If you live north, west or east — park

downtown, don't park in the general admission lots.

Don't pass the ballpark to park.

Look for the Orioles bird at downtown garages and lots.

If signs on approach roadways say that general parking lots are full — park downtown.

If you work downtown — park in your regular spot.

Don't park in neighborhoods.

FIELD OF DREAMS

Sunken Treasure: The field is 16' below street level. As a result, half the fans walk down to their seats and the
